

REMARKS

Applicant submits herewith a substitute specification in compliance with 37 C.F.R. § 1.125 and submitted with markings showing all the changes relative to the immediate prior version of the specification of record. Added matter is shown by underline of the added text. Deleted matter is shown by strike-through. An accompanying clean version (without markings) is also supplied.

The substitute specification includes no new matter.

The changes in the substitute specification correct inconsistencies between the specification and the drawings. The revised drawings correct errors in section lines and hidden views.

Entry and consideration of this Amendment are respectfully requested.

Respectfully submitted,
